#### (Continued from Previous Page)

- (12) "Warehouseman's Liability" means that except for its negligence, carrier is not liable for loss or damage to freight pending disposition.
- (13) "Payor's Published Discount" means the base rate tariff specified in the pricing program, if any, published by Central Transport specifically applicable to customer's shipments. If customer has no pricing program published by Central Transport, payor's published discount means the Central Transport CT 500 U/C (Series) (default) tariff applicable to all shipments for which no specific Central Transport pricing is published.
- (14) "Shipper" means the party from whom the carrier received the shipment, or any parts thereof, for transportation at point of origin or any stop-off point, whether he be original shipper, or warehouseman, or connecting air, motor, rail, or water carrier with which the carrier does not maintain joint through rates, or other person to whom the bill of lading refers.
- (15) "Consignee" means the party to whom the carrier is required, by the Bill of Lading, or other instructions to deliver the shipment, or any part thereof, at destination or any stop-off points, whether he be ultimate consignee, or warehouseman, or connecting air, motor, rail, or water carrier with which the carrier does not maintain joint through rates, or other person to whom the Bill of Lading designates.
- (16) Unless otherwise provided in carrier's specific tariffs, a "SHIPMENT" consists of a quantity of freight tendered to a carrier by one shipper (shipper) at one place at one time for delivery to one consignee at one place on one bill of lading.
  - (a) A "PREPAID SHIPMENT" is one for which the charges for transportation services rendered at the request of the shipper, including charges for any accessorial services performed at the request of the shipper, are to be paid by the shipper. Notwithstanding the shipper's primary payment responsibility, both shipper and consignee are liable for payment of the carrier's freight charges under the theory that both the shipper and consignee receive the benefit of the carrier's services. Thus, if the shipper does not pay the charges within carrier's payment terms for any reason, including insolvency, the charges may be reversed to the consignee and become the consignee's responsibility for payment.
  - (b) A "COLLECT SHIPMENT" is one for which the charges for transportation services, including accessorial services rendered at the request of the consignee, or requested by the shipper for the consignee, are to be paid for by the consignee. Notwithstanding the consignee's primary payment responsibility, both shipper and consignee are liable for payment of the carrier's freight charges under the theory that both the shipper and consignee receive the benefit of the carrier's services. Thus, if the consignee does not pay the charges within carrier's payment terms for any reason, including insolvency, the charges may be reversed to the shipper and become the shipper's responsibility for payment.
  - (c) A "THIRD PARTY PAYOR SHIPMENT" is one for which the charges for transportation services, including accessorial charges rendered at the request of the shipper and/or consignee are to be paid for by a third party. Third parties are often firms such as logistics companies (3PL's), brokers or other intermediaries who provide services for/to shippers and/or consignees, but who have no contractual relationship with a carrier. Notwithstanding a third party's primary payment responsibility, both shipper and consignee remain liable for payment of the carrier's regist charges under the theory that all parties receive the benefit of the carrier's services. Thus, if the third party does not pay the charges within carrier's payment terms for any reason, including insolvency, the charges may be reversed to the shipper or consignee or both in succession if either fails to pay. It is a recognized risk to shippers and consignees dealing with third parties that, should the third party fail to pay a valid freight bill, the shippers and consignees remain liable for payment to the carrier. This is the case even if the shipper or consignee has already forwarded payment to the third party fails to pay carrier.

The liability of a warehouseman, as defined on our On Hand notice, is the actual value of the freight damaged or fifty cents (\$0.50) per pound based upon the actual weight of the articles affected, whichever is lower, subject to a maximum of \$5,000 per shipment. Note – carrier will have no monetary liability for undamaged freight.

	D — BILLS OF LADING FREIGHT BILLS AND STATEMENTS OF CHARGES ding issued by carrier are subject to the following:	360
(1)	All rates, terms and conditions of the transportation service are subject to and governed by the carrier's rules, unless a written agreement separate from the bill of lading is signed by an authorized representative of carrier and by an authorized representative of customer.	
(2)	Bills of lading other than the carrier's bill of lading, Uniform Straight bill of lading (as published in NMF 100 series), or shipper supplied bill of lading referring to classifications and tariffs applicable at the time of shipment, shall not be accepted. If carrier inadvertently accepts such Bill of Lading, the Bill of Lading shall serve the purpose of receipt for commodities and identification of delivery location only and shall not serve as a contract for carriage. The terms and conditions of the Uniform Straight bill of lading as published in NMF 100 series shall govern the movement of shipment.	
(3)	Consignors may elect to have printed their own bills of lading, in which case, these forms must conform to NMFC standards and contain (1) identification or location of shipper or consignee; (2) commodity description; (3) NMFC item number and sub, rates or classes; or (4) other information pertinent to the shipment.	
(4)	The shipper must identify the specific commodity or product on the bill of lading for all transportation moving under FAK or "Freight, All Kinds" rates. For example, to describe freight on the bill of lading as "FAK 85 Freight" is insufficient.	
(5)	Driver signature on the bill of lading acknowledges receipt of freight only.	
(6)	Shipments are Collect unless otherwise marked. If neither "Prepaid" nor "Collect" is marked by shipper on the original bill of lading, shipment will be Collect.	
(7)	The bill of lading contains Liability Limitation Election choices to allow shipper to request higher than standard levels of liability assumption by carrier in exchange for payment of an additional or higher than normal fee. Additional liability is subject to prior approval by Central Transport's Claims Department.	
(8)	Carrier no longer accepts Section 7 provisions under any circumstances. Carrier bill of lading does not contain "Section 7" language and does not allow "Section 7" (non-recourse) election by shipper. If shipper uses a bill of lading other than Carrier's Bill of Lading and signs Section 7, the signature will be invalid.	
(9)	When, as a prerequisite to payment, the shipper furnished copy of bill of lading is to be returned, it must be clearly and prominently marked by the shipper with the specific instructions directing its return with freight bill.	
(10)	When Customer's pricing program is published with a pallet weight waiver and/or allowance, Customer must list the pallet weight on the original bill of lading as a separate line item. If the Customer fails to list the pallet weight on the bill of lading, Carrier will assume the weight presented on the bill of lading to be the net weight of the commodities alone excluding any pallet weight. Carrier will apply a pallet weight calculation by multiplying the handling units times the pounds per pallet as published in the Customer's pricing program.	
	D-A — REQUESTS FOR COPIES OF DOCUMENTS	
Carrier sł standard	nall furnish one page of the original shipping document, one delivery receipt and one statement of transportation charges on its own form.	
(1)	When Payor of freight or other lawful charges requires or requests as a prerequisite to payment any additional documents or copies of documents including but not limited to bills of lading, proof of delivery or statements of charges a charge of <b>\$4.20</b> will be assessed for each such document or copy.	360-A
(2)	When Payor of freight or other lawful charges requires or requests as a prerequisite to payment the preparation by the carrier of any forms requiring itemization, listing or description of single or multiple freight bills, for submittal with freight bills or statements of charges, a charge of <b>37 cents</b> per line of itemization, listing or description (or portion thereof) subject to a minimum charge of <b>\$4.20</b> per page, per copy will be assessed.	
NOTE: T	he above provisions will not apply to shipments moving on United States Government Bills of Lading.

Shipment will be rated at \$2.90 per mile, subject to minimum charge of \$600.00 and a maximum charge of \$5,625.00	
Any shipment that:	
<ul> <li>(a) weighs 40,000 pounds or more or</li> <li>(b) occupies 2560 cubic feet or</li> <li>(c) occupies more than 40 lineal feet of trailer/container space is subject to the following minimum rate conditions:</li> </ul>

(2) Shipments weighing 20,000 pounds or more, or occupying 28 lineal feet of trailer/container space or more will be subject to Central Transport's (TL) Truckload Fuel Surcharge.	
Any article, pallet or package that cannot have other freight loaded on top of it, either physically or by shipper's instructions, will be considered to be eight (8) feet in height when calculating cubic feet for application of this item.	
If carrier receives two or more shipments from one shipper, at one origin, destined to one or more consignees at the same delivery address, during one calendar day, which if combined would result in application of this item, then the shipments in aggregate will be considered as one shipment subject to the provisions of this item.	
Miles will be determined according to mileage in PC Miler.	
Each vehicle or trailer loaded to capacity will be subject to the per mile charge above. When the rate per mile or minimum charge is applied, the charge for that portion of the shipment loaded into the last trailer or vehicle (not loaded to capacity) will be rated as a separate shipment.	
Shipments subject to re-consignment: That portion of the freight charges from the re-consignment point to the final destination will be subject to the rate per mile, subject to a Minimum Charge of \$300.00. If the otherwise applicable charge produces a higher charge the provisions of this item will NOT apply.	
If more than one rate rule or provision from this tariff could be applied to the same shipment, the rule or provision that produces the highest rate will apply. For example, if a shipment is subject to the cubic capacity provisions of Item 611 of this tariff and those provisions produce a higher charge than the provisions of this Item 385 then the provisions of Item 611 shall apply.	
ITEM 395 — MINIMUM CHARGE — SHIPMENTS CONTAINING HOUSHOLD GOODS	395
The minimum charge for a shipment of Household Goods or Personal Effects as described in NMFC Item 100200 will be 500 pounds at the applicable rate but not less than the minimum charge published between the origin and destination.

The designated third party must provide proper documentation including specific authorization and acceptance of the original and additional freight charges.</li> <li>i) Requests to add a third party not named on the original bill of lading will be accepted after final delivery, however, if the third party has a non-customer specific pricing program in effect on the date of the shipment, those rates and charges will not be applicable. - (a) NMFC Class
- (b) Class Exception Rating including FAK (Freight of All Kinds)
- (c) Stated Bill of Lading Class

Column A	Column B	
NMFC Class or Class Exception Rating	Maximum Liability Per Pound Per Piec	
50	\$1.00	
55	\$2.00	
60	\$2.50	
65	\$4.00	
70	\$5.00	
77.5	\$5.00	
85	\$5.00	
92.5	\$5.00	
100	\$5.00	
110	\$7.00	
125	\$7.00	
150	\$7.00	
175	\$7.00	
200	\$7.00	
250 and Above	\$10.00	

Central Transport's liability for loss or damage shall be limited as follows. In the event more than one limit of liability rule may apply to a shipment, the rule with the lowest applicable maximum limit of liability will apply. If shipper requires liability above the limits applicable below shipper is advised to follow the provisions contained in item 784:

- (1) Invoice value of the commodities damaged or lost subject to a maximum liability of \$100,000.00 (US\$) or \$20,000.00 (CAN\$) per occurrence.
- (2) Limited liability provisions of the bill of lading (Central Transport standard liability limits as referred to in table above.)
- (3) Applicable limited liability provisions/released value provisions of the NMFC subject to the maximums by NMFC Class or Class Exception Rating as shown above in this Item.
- (4) Limited liability provisions of Prohibited and Restricted commodities as outlined in item 780.
- (5) If Shipper or Shipper's Agent has elected to supply and complete his own bill of lading or to complete a Uniform Straight bill of lading or a bill of lading form provided by carrier for shipper completion and fails to provide a freight description or describes the freight incorrectly on the bill of lading (misrepresentation) or uses a description of 'FAK' or 'Freight All Kinds' or other language that does not properly identify the commodities shipped, Carrier's liability will be determined as follows:
  - a. In cases of failure to provide a description (missing descriptions) or when freight is described as 'FAK' or 'Freight All Kinds' with exception class provided but no further description, Carrier's liability will be limited to \$0.10 per pound.
  - b. In cases where freight is described incorrectly (misrepresentation) Carrier shall be absolved of any freight claim liability. Falsification of freight descriptions by shippers for purposes of securing lower pricing or for any reason whatsoever shall void the bill of lading Contract of Carriage and release Carrier from freight claim liability. For example, if a shipper tenders a crate of expensive alloy assemblies described as 'scrap iron' and later files a claim for loss or damage, the carrier shall have no liability and claim will be denied.
- (6) Shipments moving under any Pallet Program rating structure will be limited to a maximum Carrier liability for loss or damage of \$1.00 per pound per piece subject to a maximum liability of \$10,000.00 per shipment.
- (7) Shipments moving under any Spot Quote rating structure will move at a liability limit of \$1.00 per pound per piece subject to a maximum liability of \$10,000.00 per shipment.
- (8) Shipments originating in Canada and destined to the United States, shall be subject to a maximum liability of \$2.00 per pound (CAN\$), per package, subject to a maximum of \$20,000.00 (CAN\$) per occurrence.
- (9) When Central Transport handles shipments in connection with other carriers (either air, motor, water or rail), Central Transport's maximum liability in the event of loss or damage will in no case exceed the maximum liability of the other carrier.
- (10) A maximum liability of \$1,000.00 per shipment will be applicable if, at the time of shipment, the claimant does not have a published pricing program (contract or tariff), does not have a spot pricing agreement in effect with Central Transport or was not listed as the shipper, consignee or third party on the original Bill of Lading.

#### ITEM 996 — DETERMINATION OF FREIGHT CLASSES

In accordance with standard industry practice and pursuant to proper bill-of-lading requirements; shipment weights, commodity descriptions, and freight classifications are to be correct and must accurately reflect the shipments product and handling characteristics. Carrier also requires that bills of lading clearly list and label the correct NMFC Item and sub numbers for all commodities. Carrier maintains the right to inspect all freight it is tendered, or use other sufficient evidence to adjust shipment classification to insure that Carrier invoices are based on accurate freight characteristics.

A fee of **\$35.00** will apply when classification changes are deemed necessary. Carrier will document such changes on the invoices and/or will provide class change certifications as support.

When Class modification is necessary due to shipment inspection or other sufficient evidence, Carrier will employ procedures below to determine appropriate classification for rating purposes based on a shipment's density. Classification determined under this procedure will be applied in lieu of classification determined under the National Motor Freight Classification STB NMF 100 Series. The following table has been adapted from the NMFC Commodity classification Standards Board Density guidelines.

- Density (pounds per cubic feet) will be determined by dividing a shipment's weight (including all packaging and pallets) by its total cube (length x width x height).
- Calculated shipment density will be reviewed against the table below to determine the appropriate corresponding freight class for shipment rating purposes.
- Class corrections will be made to the corresponding density freight class when the correct NMFC Item numbers, subs and classes are not listed or are not legible on the original bill of lading and the change results in an increase in freight class.
